THIRTY-SIXTH  
ANNUAL  
REPORT

1937

---

---

For want of money we have  
been compelled to postpone a  
portion of our extension scheme.

If we are to provide the services  
so badly needed we **MUST**  
complete our scheme.

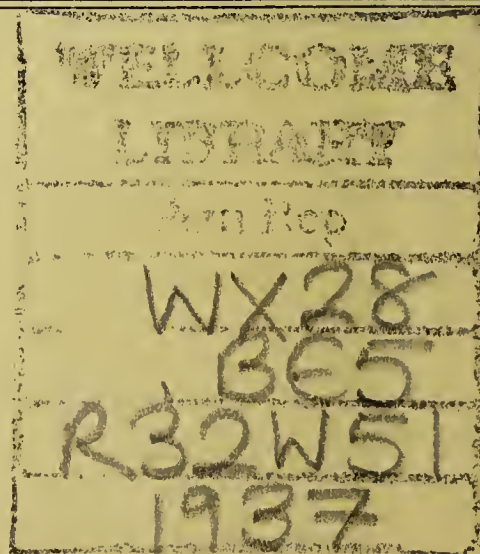

**PLEASE HELP !**

## The Coronation Extensions Fund Appeal Committee.

This Committee has been formed for the purpose of collecting the balance of the money required for the extensions. Sir Edward Nicholl's gift of £15,000 is conditional upon the raising of this by public donations. Charges in connection with the building are estimated at about £20,000, and a further £3,000 will be needed for equipment and furniture. You are asked to make a special effort to assist.

**MINUTES of the Thirty-seventh Annual Meeting of the Subscribers  
to the West Cornwall Miners' & Women's Hospital, held at the  
Hospital at 3 p m., on Thursday, 12th May, 1938.**

---

PRESENT. The Right Honourable the Viscount Clifden, M.V.O., President (in the chair); Mesdames D. W. Thomas, Wickett, Opie, Veale, Parker, Berriman, Simmons, E. Hards, E. M. Thomas, Tyack; Rev. W. R. Ladd Canney; Dr. Rivers; Messrs. G. P. Paige, A. Pearse Jenkin, Curry, White, Ford, Batty, Teague, Webster, V. Smith, Willis, Berriman, Peters, Griffin (Hon. Treas.), Pope (Hon. Sec.) and Enstice (Asst. Sec.).

1. The President mentioned that during the year they had lost two members of the Management Committee, Mr. Smale and Mrs. Eva. Those present stood in token of respect for their memory.
2. On the motion of Mr. Curry seconded by Mr. Webster, the Minutes of the meeting held on 21st April, 1937, were confirmed.
3. Apologies for absence were received from Mesdames Owen, Maclaren, Williams, Treve Holman, Miss Lanyon, Miss Grylls, Mr. and Mrs. Beauchamp, Mr. and Mrs. E. Trounson, Revs. G. F. Renner and D. E. Morton; Sir Hugh Holesworth St. Aubyn; Messrs. Hughes, C. Williams, M.P., H. Rich, Penberthy, Bowden, Grylls, D. W. Thomas.
4. The President moved the adoption of the Annual Report of the Committee as read by the Secretary. He said that, thanks to the wonderful generosity of Sir Edward Nicholl, they had been able to commence their extensions. He was very sorry indeed to hear of Sir Edward's serious illness and wished him a speedy recovery. He referred to the other items of extended activities, and said that, thanks to Mr. Thomas, they had been able to commence radium treatment, but for his generosity they would have been hard put to it to procure the radium. He wished to associate himself with the thanks expressed in the report particularly to the Hospital Women's Guild. On behalf of the Hospital, and particularly on behalf of the Executive, he thanked them for their wonderful work.

Mr. G. P. Paige (Chairman of the Management Committee) seconded the motion, and remarked how much the hospital was indebted to the Women's Guild, whose work means more than money and articles; it aroused a general interest amongst a great number of people who might regard hospital subscriptions as above their standard.

The Rev. W. R. Ladd Canney referred to the remark regarding the lack of church collections for the building fund; most churches gave their collections at Harvest Festival; he thought the greatest givers were those who go to places of worship. It should not go out that the churches are doing nothing. People who did not go to church got out of a great many financial commitments with which those who do go are faced.

The report was adopted.

5. Mr. A. Pearse Jenkin moved the adoption of the accounts as circulated. Mr. Berriman seconded the motion which was carried.
6. On the motion of the Rev. W. R. Ladd Canney seconded by Mr. Teague, Viscount Clifden was re-elected President. His Lordship thanked the meeting.
7. On the motion of Mr. W. J. T. Peters ssconded by Mrs. Wickett, the following were re-elected Vice-Presidents :—

Mr. H. Grylls, Sir Edward Nicholl, Mr. J. C. Williams, Mrs. W. C. Pendarves, Mrs. Powys Rogers, Mrs. R. A. Thomas, Mrs. Edward Trounson, Mrs. C. Tyack, Dr. Rivers, and the Chairman and Vice-Chairman for the time being of the Camborne-Redruth Urban District Council.
8. On the motion of Mrs. D. W. Thomas seconded by Mrs. J. M. Opie, Mr. W. H. Griffin was re-elected Honorary Treasurer. Mr. Griffin thanked the meeting.
9. On the motion of Mr. Berriman seconded by Mr. White, Mr. Pope was re-elected Honorary Secretary. Mr. Pope thanked the meeting.
10. Mr. Griffin informed the meeting that Mr. Parker had tendered his resignation as Honorary Auditor, and expressed deep regret at the reasons for this step, and the hope that he would very soon be restored to health again. Mr. Trevenen had also expressed a wish to retire. He moved that Mr. J. Eustace Wickett and Mr. R. Johns be elected Honorary Auditors for the ensuing year vice Messrs. Parker and Trevenen resigned.

Mrs. Veale seconded the motion which was carried.

The President said he felt sure that the meeting would like to associate itself with the sentiments expressed by Mr. Griffin.

11. On the motion of Major Ford seconded by Mrs. Berriman, the following were elected to the Committee of Management :—

Mesdames Arthur, Berriman, Beauchamp, Bickford-Smith, Ladd Canney, Hayman, L. Holman, Treve Holman, J. Holman, Maclaren,

J. M. Opie, Owen, Parker, Simmons, D. W. Thomas, Tippet, Trounson, W. D. Tyacke, Veale, Wickett, Williams; Miss H. Grylls, Miss A. E. Lanyon; Mr. and Mrs. Hards; Revs. H. A. Benaton, Ladd Canney, Inwood, Kirk, Morton, Renner, Speight, Thompson; Messrs. Angwin, Batty, Berriman, T. Berryman, Bowden, Cornish, Clayton, Curry, Ford, Gilbert, Gilpin, Grylls, James, A. Pearse Jenkin, Lidgley, Moyle, Ninnis, A. Opie, W. J. Opie, Olivey, Oates, Odgers, Paige, Penberthy, Pengilly, Peters, Rich, Victor Smith, Teague, E. Trounson, Webster, White, S. Wickett, A. Williams, Willis, Willoughby.

12. Mr. W. J. T. Peters presented the report of the Building Committee on the progress made with the Extensions, and indicated the further work needed.
13. On the motion of Mr. Griffin it was unanimously decided to send a letter of sympathy and good wishes to Sir Edward Nicholl.
14. On the motion of Mr. Pearse Jenkin seconded by Mr. Berriman, Viscount Clifden was thanked for presiding.

---

## Report of the Committee

of the West Cornwall Miners' & Women's Hospital for the year ended 31st December, 1937, read at the Thirty-seventh Annual General Meeting of the Subscribers on the 12th day of May, 1938.

---

THE tables which form the appendices to this report present in convenient form a comparative statement of the work of the hospital during the year, and only a few explanatory remarks at this point are necessary.

**IN-PATIENTS.** The number of patients admitted during the year shows a small decrease, but the actual number of patient-days (which more truly represents work done) shows a substantial increase. This has been accomplished in spite of certain adverse factors. The year began with an outbreak of influenza during which only really urgent cases could be dealt with. This was followed by two periods in which it was necessary to close one of our largest wards as a measure of precaution against infection. In the circumstances the bed occupancy of 14,056 days, as against 12,606 in the previous year, has involved persistent overcrowding of wards, and a continuous waiting list. The verandah adjoining the male wards was enclosed, and here we managed to accommodate two, and often three, patients.

In this connection it should be observed that ours is, in the main, a surgical hospital; its waiting list therefore has a significance which does not apply to hospitals dealing with medical and more or less chronic cases. Therefore even a small waiting list presents an anxious problem; when that list is so persistent as has been the case this year, the need for adding to our accommodation is greatly emphasised.

In the statistics of work done, a new figure appears. For some reason it has not been the custom in the past to include in these statistics all the occupants of our maternity wards—mothers only have been accounted for; we have this year noted the babies also.

**MEDICAL CASES.** We are experiencing an ever increasing demand for accommodation for Medical Cases, and we have, in fact, done a little more on this direction during the year. The hospital accommodation, however, is entirely inadequate to cope with anything like the demand for its services in this connection, and it will be a relief to all concerned when the additional accommodation is available.

## **EXTENSION OF ACTIVITIES.**

**MASSAGE.** During the year we have secured the services of a fully qualified Masseuse who attends at the hospital twice weekly. This has been in the nature of an experiment, which has been fully justified. The service of a Masseuse in cases of fractures shortens the stay in hospital appreciably and has helped to make it possible to deal with more cases than we could otherwise have done.

**PATHOLOGY.** After much consideration the Committee decided that it was in the interests of the patients and the hospital that this service should be recognised as a part of the hospital service, and that proper financial provision should be made for it. Incidentally it is a necessary adjunct to our newly established radium service. We are fortunate in having in Green Lane a long established laboratory, and we have appointed Dr. Rivers our Honorary Pathologist.

**RADIUM.** It will be remembered that the provision of radium has been the subject of discussion by the Management Committee, to whom proposals were submitted by the Executive Committee.

In the summer of 1937, Professor Russ (an eminent authority on the subject) gave an address at Truro in which he advocated the establishment of a radium centre in the county as a necessary adjunct to X-Ray Therapy. The scheme for the provision of radium was adopted by the Management Committee, and Mr. C. V. Thomas at once presented a cheque to cover the purchase price. It is too early yet to offer any comment upon our experience in this branch, but we would like at this stage to make the most public acknowledgement possible of our indebtedness to Mr. Thomas for his most generous gift.

**EXTENSIONS.** At the last Annual Meeting of the Subscribers, we were able to announce that the great generosity of Sir Edward Nicholl had made it possible to embark upon our extensions scheme without

having recourse to the sale of securities. It had been estimated that not more than £20,000 would be required. When tenders were received it was found that the lowest price was far in excess of this figure. To proceed with the complete scheme would have involved an outlay, including professional charges and equipment, of not much less than £40,000. An all-round increase in prices contributed in some measure towards this, but a great deal more is accounted for by the difficulties which presented themselves in adapting additions to buildings constructed on different levels. The Committee was faced with the choice of two solutions to their problem, either to proceed with the scheme with its unexpectedly heavy financial commitments, or to find some way of modifying the plans so as to preserve those additions which were vitally and urgently necessary, and deferring other portions which, though sadly needed, had to be relegated to a secondary position. The latter course was adopted. It has involved a modification of some accommodation for the Western Section which contains the Women's and Maternity Wards, the cutting out for the time being of the new Children's Ward, and of the additional nurses' bedrooms. As the new nurses' dining room was to have been the ground floor of the new Children's Ward, a temporary structure will have to be substituted for this. We must emphasise that the curtailment can only be regarded as temporary, and that the need for those parts which have been postponed is pressing; the provision of this accommodation cannot long be delayed.

The decision taken was a very grave one, but any other course would have presented the hospital with a financial problem which would almost certainly have handicapped us in providing for the additional services, a factor which must in all cases be the primary consideration. That the decision was a wise one is, we submit, borne out by the financial statements presented to you. The response to our appeal has not been so good as had been hoped, and money is coming in very slowly. The sacrifice of investments would have involved loss of income which it would appear cannot be made good by non-contributory income from other sources, and would have necessitated making an increased demand upon patients towards the cost of their treatment. In this connection we would invite attention to the section of this report dealing with finance.

We would take this opportunity of again impressing upon everyone in our hospital area how vital is the need, and how intimately is their concern with the successful functioning of the hospital. Particularly, we would emphasise the almost complete absence from our appeal list of any mention of congregational contributions. We know, of course, that members of congregations in a position to do so have probably helped considerably, but it is not realised how much can be done by the "pennies of the poor." We believe and hope that all churches in this area will yet give a lead to their adherents, and we feel that if they will only give that lead, a very substantial sum can be made available. The important thing is to bring home to the huge population we serve that it is *their* hospital which needs the money.

**HOUSE SURGEON.** It is convenient to refer at this stage to the proposed appointment of a House Surgeon, as the question of accommodation arises. The appointment having been approved, the Executive Committee has under consideration the necessary arrangements which must, of course, include the provision of quarters.

**FINANCIAL.** Attention is invited to Table "A" which shows the main sources of hospital revenue, the amounts received, and their value in terms of patient-week towards the maintenance of each patient. It will be observed that the total income represent 48/1 per patient-week, as against an expenditure of 50/6. Hospital income is derived from two sources, (a) contributory—that is contributions by or for patients and from contributory schemes; and (b) non-contributory—that is subscriptions, gifts and invested income. A comparison for the last six years gives the following proportionate revenue:—

	1932	1933	1934	1935	1936	1937
Non-contributory income	28/10	23/4	22/9	28/5	23/9	19/6
Leaving to be found from } contributory sources ... }	21/8	24/9	25/2	25/3	27/10	31/-

This does not mean that there has been an appreciable decrease in non-contributory income, but that it has not expanded in proportion to the expansion of the hospital's work.

**CONTRIBUTORY SCHEMES.** In previous reports we have mentioned the unique position in which this hospital stands in having two schemes. The older scheme, which belongs to the miners and covers their hospital needs, has long marked the traditional association of the hospital with the mines. The more recent is that known as the H.S.A. (a convenient, but, it is feared, somewhat misleading nomenclature). The organisation known as the Hospital Saving Association acts as a clearing house for vouchers, and keeps the accounts, for which services a percentage of the income is retained by them, but otherwise the scheme is purely local in its organisation and is definitely based on its own hospital, to which the whole of the available money goes after the necessary adjustments have been made to cover treatment of contributors elsewhere. The present year has seen a marked increase in contributory membership; it is true that the net receipts show a decline in our accounts, but this is accounted for by the fact that the Organising Committee voted £235 of the disposable surplus last year to the Extensions Fund.

We earnestly invite the co-operation of the public in this scheme, and we print at the end of this report a list of names of Honorary Group Secretaries who will be pleased to enrol new contributors. We estimate that the present membership can easily be doubled, but we believe it to be true that large numbers of people are unaware of the existence of the scheme, and that many do not understand the scope of its benefits. It is possible for our friends to render signal service to their hospital by assisting in advertising the advantages of contributory membership.

The Committee is indebted to the Organising Committee and Group Secretaries to whose voluntary and consistent efforts the scheme owes its satisfactory membership.

**SUBSCRIBERS.** By comparison with similar hospitals, we cannot truthfully say that our subscription total compares unfavourably, but we would point out that the bulk of the money comes from a small number of subscribers; the list at present can only be described as "precarious."

**DONATIONS, COLLECTIONS, etc.** The amount this year is indeed small, but must be viewed in the light of accompanying facts. We cannot expect to maintain the figure of previous years at a time when we are straining every effort to secure money for an appeal fund, furthermore, for the two preceding years gifts had been received for special objects such as Surgical Beds and Operating Theatre Instruments. At the same time, we feel that attention should be drawn to the diminishing income from Hospital Demonstrations and Congregational Collections.

**THE HOSPITAL WOMEN'S GUILD.** Once again we have to express our appreciation of the splendid work done by this organisation. The Redruth Branch organised a house-to-house collection on behalf of the Extension Fund which brought in over £187, and Bridge and Whist Drives realised nearly £22 more for the same object. Pound Day benefited the hospital to the extent of about £20. In addition to this, material for hospital requirements was provided to the value of £108:12:11, much of this actually being made up by the members. Camborne Branch organised Alexandra Day which resulted in £23:17:0 for maintenance account, and the organisation of a Hospital Week resulted in over £155 for the Extension Fund. In addition to this, a large number of articles were supplied to the hospital.

**SANKEY REPORT.** This report has attracted a great deal of attention throughout the country, and has been supplemented by a report of a Survey of Cornish Hospitals conducted by the Secretary of the British Hospitals Association and a representative of the Ministry of Health. The Executive Committee has kept in close touch with other hospitals and is carefully watching developments, and has ensured that the interests of this hospital have been safeguarded in any discussions that have taken place. The report requires the most careful consideration; there is much in it which is of value, and we believe that many suggestions put forward therein can be adopted to the advantage of the hospitals generally, but we doubt both the wisdom and the practicability of attempting to adopt the report as a whole, involving, as it does, the setting up of an organisation which, so far as Cornwall is concerned, appears to be unsuitable. Further meetings of Cornish Hospitals are to be held, and this being so we feel that it is premature to comment in detail upon any proposals; but we would say at this juncture that we are satisfied that a policy of mutual co-operation

will be of advantage, and that we feel this to be possible without in the slightest degree interfering with existing loyalties and local patriotism which have created the present magnificent system of voluntary hospitals.

**GIFTS.** Our appeal at Xmas met with a most gratifying response. Acknowledgements were duly made in the press by the Matron. Occasionally we receive gifts in kind during the year, but they are infrequent and from one or two people only. We would like to offer a suggestion in this regard. Provisions alone represent an expenditure of about £100 per month on an average; we need much in the way of vegetables on which we spend a considerable amount. Are there not friends who have at times on hand items which have not been disposed of and which could be given to the hospital? The close of the weekly market must frequently see a surplus of unsold vegetables, and it is possible that many vendors who cannot see their way to giving money might render valuable assistance by bringing surplus goods to us.

**NURSING STAFF.** As from August month the hospital became affiliated with the Federated Superannuation Scheme for Nurses and Hospital Officers. Those in our service at the time were given the option of joining or not; only two elected not to join. Those appointed since automatically join the scheme, if they have not already done so. Substantial benefit is available to contributors in the shape of a gratuity or a pension on retiral.

In most hospitals difficulty is experienced in obtaining an adequate supply of Probationers. In our own case the lack of a house surgeon which makes it impossible for a probationer to complete her training here probably enhances the difficulty. It certainly results in our losing probationers at a time when they have become really useful members of the staff. We are of opinion, however, that some part of the difficulty which hospitals experience arises from the fact that probationship begins at 18, whereas most girls have left school by the time they attain 16 years. In the intervening two years other opportunities of choosing a career present themselves, and we believe the nursing profession thereby loses many who would be welcome recruits. In an effort to counteract this we have instituted a grade known as "STUDENT NURSES." These girls can come to the hospital direct from school, they are taught practical work and attend a modified course of lectures designed to help them to pass the Probationers Entry Examination. They are paid a reasonable wage and live at home. From this source we have already obtained one probationer, and we hope the scheme will prove a fruitful source of recruitment.

**THE STAFF.** The Committee wishes to thank the Medical Staff for their co-operation and the splendid work done during the year. To the matron and her staff we offer our thanks for their loyalty and devotion to duty. We also wish to thank Messrs. Parker and Trevenen for their work as auditors over a long period of years, and Mr. White who has been associated with the auditing of the hospital's accounts in the last two years.

## THE CONTRIBUTORY SCHEME.

---

Your co-operation is invited in support of the valuable work which is being done by the Group Secretaries, whose names and addresses are given below, and through whose efforts the contributory membership has increased enormously. Their work is entirely voluntary, and whilst providing a steady source of revenue to the hospital ensures for contributors the free use of the hospital's services.

- Mr. L. Farenbuck, 74, Carnarthen Street, Camborne. (P.R.)  
Mrs. L. T. Sara, Pencliffe, Atlantic Terrace, Camborne.
